- **Additional Skills:** Microservices, API Development, Razorpay Integration, Responsive Design

PROFESSIONAL SUMMARY

Innovative Full Stack Developer with 2 years 8 months of professional experience designing, developing, and deploying scalable web applications. Expert in Python, Django, React, MySQL, HTML, CSS, JavaScript, and Bootstrap, with hands-on experience in microservices architecture, REST APIs, and Razorpay payment integration.

PROFESSIONAL EXPERIENCE

Softcraft Systems & Solutions Pvt. Ltd., Chennai

Full Stack Developer | Jan 2023 – Present

- Developed and maintained multiple high-traffic web applications admin dashboards using Python, Django, React, and Bootstrap.
- Implemented microservices architecture for modular and scalable system design.
- Integrated Razorpay payment gateway for secure, real-time financial transactions.
- Optimized backend processes, reducing processing time by 20–30% in key modules.
- Collaborated with cross-functional teams to deliver end-to-end solutions and ensure high-quality, maintainable code.

KEY PROJECTS

The Coimbatore Papers (ERP Application)

Python, Django, MySQL, HTML, CSS, JavaScript, Bootstrap

- Built a system for supplier, customer, stock management, quotations, purchase orders, dispatches, returns, and billing.
- Automated invoicing and payment tracking with detailed financial reporting.
- Enhanced operational efficiency through streamlined workflows and dashboards.

Eazypay & Material Contribution (Ongarakudil Trust)

Python, Django, MySQL, HTML, CSS, JavaScript, Bootstrap

- Developed a secure donation management system for monetary and material contributions.
- Automated donor tracking, receipt generation, and user access control.
- Improved administrative efficiency and transparency for trust operations.

Myrra & Abinav Insurance Commission Management

Python, Django, MySQL, React, HTML, CSS, JavaScript, Bootstrap

- Automated insurance commission calculations across multiple companies.
- Developed modules for PDF data extraction, automated calculations, and reporting dashboards.
- Streamlined agency-wise commission management, reducing manual errors and processing time.

Bible2All (Web-Based Bible Reading Platform)

Python, Django, MySQL, HTML, CSS, JavaScript, Bootstrap

- Developed an interactive Bible reading platform with user authentication, responsive design, and content management.
- Implemented secure data handling and intuitive UI for enhanced user experience.
